## Hood's Sarsaparilla

"It gives me great pleasure to state what Hood's Sarsaparilla has done for me and my wife. She has been afflicted with neuralgia pains in her head for six years and it settled in her eyes. At times she would be totally blind and have to stay in a dark room for months. A short time ago we began using Hood's Sarsaparilla and today, thank God, she is able to attend to her household duties, which she had not previously done for years. My own case was somewhat similar, and since taking Hood's Sarsaparilla the inflammation has left my eyes and my nerves have become quieted. My health today is better than it has been for several years. I am gaining in strength and I feel like a new man." WILLIAM H. NUNAMAKER, Judsonia, Arkansas.

## NIPPED IN THE BUD

Most Dastardly Work of Geo. M. Cannon.

## ALTERED AN AFFIDAVIT

And Blames Issuance of a Sacrilegious Badge to Judge Powers—Intended to Use a Lying Circular With Altered Affidavit Attached in Outlying Districts.

Reference is made today in the editorial columns to an infamous circular being circulated about to be circulated in outlying parts of the territory where "church influence" is thought to be most easily worked in politics by republicans. The circular is headed "A Democratic Insult" and contains a cut and descriptive matter of a certain badge very insulting to Mormons. It closes with purported affidavits from E. J. Swanner, maker, and one Andrew J. Bart a democrat to the effect that the badge was designed and ordered made at the instigation of the state democratic committee, or rather of Hon. O. W. Powers, chairman.

An honest Provo republican on Monday night got hold of one of these circulars. He did not believe its contents and was indignant at this proposed method of republican campaigning and he brought the circular in to this office and offered it to J. F. Gibbs, editor, saying to Mr. Gibbs to make whatever use he thought best of it. Mr. Gibbs at once mailed the circular and an explanatory letter to Chairman Powers. Immediately upon receipt of the letter Mr. Powers sent out the following telegram to all county chairmen. Abel J. Evans received the telegram last evening. It was read by him last night and will be given further publicity. It reads as follows:

"Rep-b'ans circulating circular containing affidavit connecting me with a sacrilegious badge ridiculing Mormon religion. It is a dastardly lie. It is an infamous slander. George M. Cannon admits he is responsible for the same. I appeal to the fair minded men to vote down a party resorting to such measures convey my denial everywhere."  
O. W. POWERS.

The Salt Lake Herald this morning has an expose of the whole matter. In that expose appears not only a denunciation by Powers but also statements from Swanner and Bart as follows:  
Mr. Swanner says the affidavit was procured by George M. Cannon and Ben E. Rich; that he told these men that Judge Powers had sent for seven only and had procured but one. He states that he made only one dozen in all. Swanner also stated that the affidavit as he signed it stated that Judge Powers procured but one badge.  
ANDREW BART'S STATEMENT.  
"A day or two after the agitation regarding the priest hood meeting commenced, I was talking with the republicans who were wanting me about the church being with their party. The discussion ran along for some time when finally I said, well, if your party has the church behind you, then you should have a badge showing the fact." Doc King, a republican and member of the Quinby club, replied: "If you will design a badge, I'll pay for it and wear it." This I agreed to do, and going to Mr. Swanner's place put a quarter of a dollar on a piece of paper, drew a circle from it and then put in the design. Swanner made three badges and the next day Doc King called and paid for them so I went to say most emphatically that neither Judge Powers nor any other democrat knew a thing about this. It all originated exactly as I have related.

### DOC KING CONFIRMS IT.

Doc King was next seen and he confirmed Mr. Bart's statement in every detail.

Mr. Powers says the first he saw of the obnoxious badge was when Mr. King was wearing it, and that on seeing it being worn he sent to Mr. Swanner for seven for use by democratic speakers; he found that it was a republican campaign document gotten out for the purpose of throwing odium on the democratic party. He got only one. Mr. Powers does not ridicule any man's religion and would not stoop to the dirty work the republican leaders are doing of altering affidavits and circulating so infamous a circular.

George M. Cannon asserts that the button had a democratic origin, the object being to create sympathy with old-time liberals in favor of the democratic ticket, and call it "a dastardly sacrilegious insult, hurled at the Mormon church as well as to every lay member of that organization" and asks doubtful voters to enter a protest by voting the republican ticket. He then alters Mr. Swanner's affidavit so as to make it appear that Bart and Powers, by compact in behalf of the democratic party caused the insulting button to be made and circulated.

For such work George M. Cannon should receive the condemnation of all honest men and women. He has committed a breach that ought to be a penitential offense.  
Judge Powers did the proper thing when he said last evening to the messenger who came from the telephone saying to him that George M. Cannon wished to speak to Mr. Powers in relation to an agreement for election day talk.  
"Tell Mr. Cannon that I no care to talk with him. Say that I will not speak to him now or hereafter or make any kind of an agreement with him on election matters or anything else. Tell him that a man who would send out such a circular as this is absolutely beneath contempt."

### THE FALSE MUSCLE INDUSTRY.

Shapely Curves Made to Order For Bachelors In Wash Factories.

There is one department of industry which, by the general admission of those engaged in it, is exempt from the stagnation which so largely prevails. Indeed it is in a remarkably flourishing state, and the men and women employed at it are kept busy from morning to night. It is that which deals with the supply of artificial sinews and muscles in order to give to limbs the plumpness and symmetry which nature has denied. The great demand at the present time is for well shaped calves for the legs, and for some time the purveyors of these embellishments could not make out why so many of them were wanted, because the requirements of the ladies of the ballet and burlesque actresses are pretty much the same all the year round, and there was nothing going on to occasion an unusual request for the articles.

But they have now found out the reason. They are required by lady cyclists who wear knickerbockers, and who, naturally enough, desire to exhibit to mankind the limbs which are not covered by these bulky garments in a shapely and attractive form as possible. The stuffing required for this purpose must be of the best kind, and it is also necessary that the mold should be well fitting; otherwise the lady cyclist would become a kind of scarecrow on wheels instead of a thing of beauty. The articles, therefore, cost more than the ordinary calves, and it may accordingly be said that the latest fashion among women not only encourages calf making, but also adds the artistic upholstery of the human figure in the highest form.—Cardiff (Wales) Mail.

Mrs. Catherine Conklin, 37 years old, who lives in the mountains near Huguenot, N. Y., since the death of her husband three years ago, has supported herself and child by cutting cord wood.

### THE MODERN STEAMSHIP.

Impossible to Guess What Speed May Be Reached Hereafter.

Twenty years ago it was thought by many that the limit as to size, speed and economy had been reached. At present it seems that the draft of water at the harbors and the cost are the limits that will prevent further development on present lines. With different material for construction, with liquid fuel, and other improvements or inventions, it is possible that 20 years from now one may look back at the Lusitania with her 21 knots as we look back on the Germania and Britannia of 1874 with their 10 knots.

The steam pressures on ocean steamers up to 1890 did not exceed 20 pounds. With the earlier vessels, with only 10 to 15 pounds of steam, it was possible to stop a leak in a boiler "by pushing a rag in the hole." As late as 1846 a prominent firm of engine builders in England stated that from 10 to 12 pounds was what they used for merchant vessels. By 1880 pressure had increased to from 60 to 90 pounds, and on the introduction of steel for boilers pressures went up to about 100 pounds by 1885, and now boilers are being built for large steamers, to carry 200 pounds. Special types of boilers for torpedo boats and other uses carry much higher pressure.

The Ericsson machinery weighs only 56 pounds per horsepower. This last is for torpedo boats and high pressures and cannot yet be approached for large vessels. On the trial trip the Minneapolis developed 20,812 horsepower, and the total weight of all the machinery, with the water in the boilers, was 1,963 tons, so that the weight of machinery for each horsepower was about 210 pounds. Had the Minneapolis machinery been of the same relative weight as that of the Powhatan it would have weighed over 4,400 tons, or 1,000 tons more than the Minneapolis itself weighed on her trial trip.—Chautauquan.

### Worthy Your Confidence.

The success of Hood's Sarsaparilla in curing scrofula in whatever way it may manifest itself is vouched for by thousands who were severely afflicted by this prevalent disease, but who now rejoice over a permanent cure by Hood's Sarsaparilla. Scrofula may appear as a humor, or it may attack the glands of the neck, or break out in dreadful running sores on the body and limbs. Attacking the mucous membrane, it may develop into catarrh or lodging in the lungs lead to consumption. Come as it may, a faithful course of treatment with Hood's Sarsaparilla will overcome it, for working upon the foundation of all diseases, impure blood, the system is clarified and vitalized, and vigor, strength and health restored to the body.

## CITY'S FINANCES.

Chas. DeMoisy Proves Jos. T. McEwan Right.

### THE "ENQUIRER" LIED.

Democrats Left No Increased Legacy of Debt But Actually Reduced the City's Indebtedness Over \$11,000.00—Accountant De Moisy, Republican Chairman Proves This.

The Third ward turned out some forty or fifty of its dyed-in-the-wool republicans at the Franklin school-house last night to hear Mayor Holbrook brag of his administration; to hear Charles DeMoisy go over the figures he has been busy for a week or ten days preparing, with a view to contradicting the record as Hon. Jos. T. McEwan has been reading it to the citizens of Provo; to hear Marshal Knight tell of the glorious service he has been giving the city for the past two years and tell of how he intends to improve it if he is re-elected, and to hear some others of the republican city candidates talk.

Mr. DeMoisy sets forth a very different set of facts from those which the infamous Enquirer circular does. He admits that the democratic administration reduced the city's indebtedness but claims the present administration increased it. Neither Mr. McEwan, nor anyone else denies this latter claim. The present council would have been a set of imbeciles had they not done so. The democratic council reduced the running expenses of the city so mightily and forced strict economy on them in so binding a manner by ordinances that they could not, unless they were criminals and took chances of a term in the penitentiary, do otherwise. Their revenues in the way of taxes, license, increasing revenues from the waterworks system, etc., came in, the cost of running the municipal government had been reduced by the democrats to a minimum (all the reduction in cost of running the city made by the republicans was the cutting of two teamsters' wages), what else could they do with the money than to pay off some of the debts of the city?

The democrats for two years had a tax levy of only 16 mills with 3 mills payable in labor, leaving only a 13 mill cash tax levy. The republicans in two years had a tax levy of 18 1/2 mills 3/4 mill payable in labor, leaving an 18 mill cash tax levy—5 mills more of a cash tax levy in two years than the democratic council had. Taking all these and other circumstances into consideration the republican administration ought to have done more than it has done, and what it has done was made possible to do by the democrats only so far as the heavy cash tax levy that was assessed by the republicans and democrats had nothing to do with that.

Now as to Mr. DeMoisy's figures, he says first of all that the democrats spent \$1,636.92 more than they received and almost in the next breath says they reduced the city's indebtedness \$782.99. Wonderful reasoning! He says that the democrats found the city in debt \$136,243.90 but he forgets to add \$7,500.00 interest on waterworks bonds falling due. He says the republicans found the city in debt \$135,490.91. He says when the democrats went into power there was \$333.24 of 1891 taxes available. The record says of 1893 available. The record says there was \$2,495.00.

Now let us correct Mr. DeMoisy's figures.  
Interest on bonds.....\$ 7 500 00  
His false credit for 1891 taxes 353 24  
Difference in 1893 taxes..... 1 686 24  
Cash left in treasury by democrats..... 783 94  
\$10 253 42

To this add amount DeMoisy says democrats reduced indebtedness..... 782 99  
\$11 036 31

This amount the democrats actually reduced the city's indebtedness, according to DeMoisy's figures. In Mr. McEwan's address the total is \$11,036.35. Practically no difference. Mr. McEwan and Mr. DeMoisy both prove the same thing—the Enquirer circular lied.

Mr. DeMoisy's other figures are his own with reference to the city's present financial condition. They cannot under the law become of record until November 12, 1895, hence THE DISPATCH will wait until that time before it quotes them.
